
HEALING DETAILS & EXPLANATIONS

Dear DPH Healers,

There have been some questions regarding healing lists and therefore I wish to explain a little further to clear up any confusion.

Basically during healing you will have two lists:

COUNTRY AND LOCATIONS

GROUPS AND ORGANIZATIONS

COUNTRIES AND LOCATIONS:

"Hot Spots" - "Hot Spots" is a name given to 8 countries where some small act might ignite the whole situation into a war. These are not countries I picked, but rather the guides communicated to me. This is why I feel they are so important. By intention I created this small list of countries calling them "Hot Spots".

When creating your Countries and Locations Healing list, all you have to do is write "Hot Spots" on this list. You do not have to list the countries separately, because "Hot Spots" has already been created by intention and includes these 8 countries.

As you do your C&L healing, each country will be healed separately in turn, because when "Hot Spots" was created, it was created by listing each country separately under the name "Hot Spots".

Number on Your List - You can list as many C&L's on your list as you want. The guides have said that the number is unlimited. If you list the countries separately on the list, they will each be healed separately on down the line.

If for an example you wanted to heal Mexico but you also wanted a special concentrated healing for Juarez, you would list each

separately. Mexico would then get a healing and Juarez would then get a separate healing too. In other words Juarez would be getting two healings, one when Mexico is healed and one for Juarez only. This is valuable when you have a place like Juarez where all these atrocities are happening and it is so important to remove the imprints and take souls to the light, etc.

So your C&L list might look like this:

MY C & L LIST

Hot Spots

Mexico

Juarez

The question was asked previously, "Why can't we just do a healing on the entire world?" You can, but it will not be as effective. It is not that the energy is diluted but it has to do with the layers of imprints.

Visualization - When doing the Symphonic Heart Healing it does not matter what/how you visualize your target, because the intention is there. You have stated your intention at the beginning of the healing. Whatever you visualize will be right and correct for you. You may have something special you visualize for your C & L list, or possibly you may just visualize the C&L List itself. It's the intention that counts. Some have worried that they were not visualizing correctly and therefore the healing might not have been as effective. Remember that each of you are powerful spiritual beings and that intention is everything!

GROUPS AND ORGANIZATIONS:

Groups - A group is more than 1 person. You can group together by intention as many individuals as you wish. Some group their families, friends, all the clients in their business, all the parties to a business transaction, the choices are endless. You use your intention to create the group and then you name it.

You might have many groups, for example:

MY G & O HEALING LIST

My family

My business clients

Taliban/AlQuaida

House Sale Group
FDA
All DPH Healers

CREATING BY INTENTION:

Whatever you create by intention, only has to be created once if you add the words, "from this day forward". For example, "It is my intention to create a group with the following members of my family, Jane, Joe, Debbie and Mom and Dad. It is my intention from this day forward that it will be known as "family group".

Then you place it on your G&O healing list as "family group". Each time you do a healing you do not have to review what people are in that group. Just having "family group" on your list is all that's needed.

HEALING - Once you have added something to your list, it stays there until and unless it is removed by you. When doing your healing all you need do is refer to the name of the list. The healing will then include all those listed.

QUESTIONS:

If you have any questions, please don't hesitate to contact me. The guides have said they do not want this to be time consuming as they know each one of us have busy lives. They are there helping us - we are co-creating peace!

Peace and Love,

Margaret McCormick
