DivinePeaceHealing®

The "registration" process for DivinePeaceHealing, has now been completed. You will notice the name has an ® following it. This means the name has now been registered with the U. S. Patent and Trademark Office.

This takes a year or longer, during which time there is a search to see if there is any name in conflict, plus other legal processes. So it's basically a very big deal and the celebration is on.

Somalia

The September 2009 National Geographic has an article about "Shattered Somalia" and "war without end." Northern, breakaway Somaliland is largely peaceful, but "Islamic militias are battling for control in the south." It further says that "conflict and drought have triggered a humanitarian catastrophe" and "lack of security makes it harder than ever to deliver help."

Note: This was contributed by Phyllis Martin for those of you who would like to add Somalia to your list,

Margaret Note: Somalia is also where all the piracy is currently going on.
