REMOTE VIEWING SESSION

REMOTE VIEWING SESSION

I apologize for being a little late getting the Newsletters out. The remote viewing session and related information kept me so busy I got behind on everything else. I do think it was worth every bit of all our time and efforts. You were all great, as far as giving it a try and sending me your notes, especially it being on a holiday weekend. I found it extremely impressive and shows what great healers and people that you are. I think we all learned a lot from this. I know I sure did.

When Andrew first suggested it I told him I had never done remote viewing and didn't think I would have much luck. He encouraged it by saying anyone could do it. Now I am truly a believer. I know that quite a few of you thought the same thing and look what happened!! Besides all the wonderful information I think we learned a very valuable lesson.

HOW ALL THIS STARTED

HOW ALL THIS STARTED

Many of you may not be aware of how all this "Egypt Related" information started. In June my daughter Laurie (also a DPH Healer) and I went on a short camping trip. She brought her massage table and was doing a healing on me. Unbeknownst to me (I had my eyes closed) she drew this huge triangle across my entire body. At that moment a huge gust of wind came up out of nowhere. (the mountain air had been still before that.) As it blew over me I heard in my head, "breath of the Holy Spirit".

NEW PROJECT

When she was through I opened my eyes and began to get up from the table. She had a funny look on her face and told me what happened. I tried to rationalize what I had heard, but soon that would not be possible.

This is when we all seemed to begin to get information about triangles and Pyramids and I received several channeled messages. Then came the past life regression and the connection with Andrew Collins. When I think of it, how it happened and what we have all been receiving in the past few weeks, I am totally amazed.

NEW PROJECT

Following are suggestions I have received for the new project:

Hot Spots
China/US Relations
Jews & Palestinians
US Government
US Military
All US Lobbyists
All places that have had natural disasters
Mother Earth
All World Health Care Providers
All Healers
Kenya
Tri-City Medical Center Community & ground beneath.

After giving this a lot of thought, and after all that has happened in the last couple months, I have a suggestion. What I would like to do is have the new project be on "The Emerald Tablet Group". After what I have learned from the guides and all that came through during the remote viewing session, I realize how extremely important it is for us to find these tablets and thus create world peace.

I feel that if the guides are communicating how important this is, then it truly must be so. Their communication tells us that this information when found, will enable humanity to accelerate their evolution at an extremely rapid rate and thus create world peace.

The other thing is the time factor involved. We have a window of opportunity open to us over the next few years that we need to take advantage of. So taking all this into consideration, I feel like this very time on our planet is critical.

Zahi Hawass, the Egyptian Director of Antiquities has begun excavation on the Tomb of the Bird Mummies. This certainly seems like a step forward, although he is doing this evidently without allowing others like Andrew Collins who has much information and researched all this very thoroughly, to participate.

The information the guides have communicated is that these tablets will be found only if there is collaboration, cooperation and love for one another. So I feel that right now is a very critical time to take the right steps. I believe the way to bring this about is through love and healing and I believe we have been given the tools. I too feel it is a win-win situation because we can also add all the things on the list above to our lists and thus everyone is happy.

Please let me know if you have an objection to this. I do want this to be a win-win situation for all involved. If there are no objections by the middle of next week, I will proceed to figure out the details as to the amount of days, etc.
